TOOLS NEEDED FOR INSTALLATION

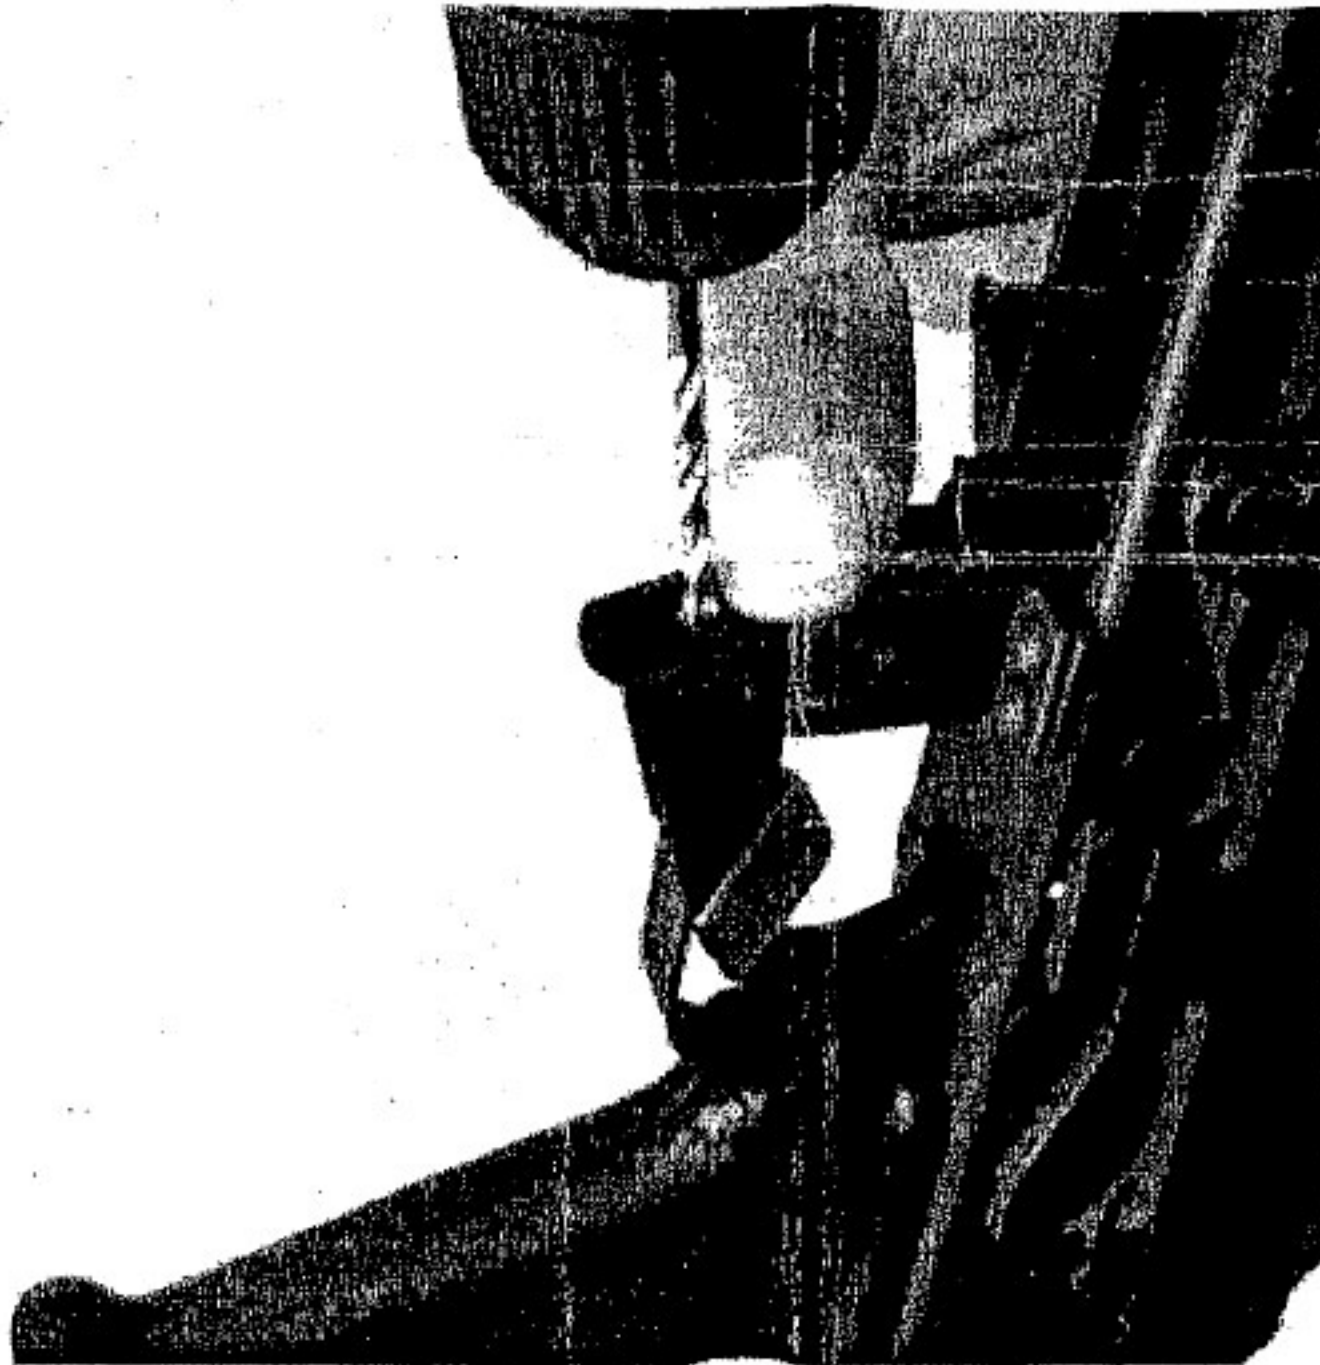

that you will need to fasten the AK-47
Tactical Extended Magazine
Release to your rifle are the following hand tools:

- Power Drill
- 1/8 inch Drill Bit
- Pop Rivet Tool or Machine, Screws and Wrench

FASTENING THE NEW MAGAZINE RELEASE

Fasten the new magazine release to the existing release using the supplied rivets. Pop rivet tools are available at any hardware or home improvement store and are very inexpensive. Alternatively, the mag release may be attached with button head screws.

DRILLING THE EXISTING MAGAZINE RELEASE

The Tactical Magazine Release forms its own drilling template. Simply hold it in place and drill through the existing holes in the new mag release.

AK COMPLETE WITH TACTICAL EXTENDED MAGAZINE RELEASE

You will be dropping mags faster without your strong hand coming off the pistol grip! Anyone can have this job complete in a few short minutes!
